Notes to Table

- ¹ Epoch represents the date of position angle and separation data. Data for Epoch 2013.5 are calculated; data for all other epochs represent the most recent measurement. In the latter cases, the system configuration at 2013.5 is not expected to be significantly different.
- ² Visual magnitudes are Tycho *V* except where indicated by *; in those cases, the magnitudes are Hipparcos *V*. Primary is not necessarily the brighter object, but is the object used as the origin of the measurements for the pair.
